

2D FOOT SCANNER

GP FussScan s2

With the 2D foot scanner, you have the option of scanning your feet within 2 seconds to digitally record both feet. The most important foot measurements are determined automatically. A 1:1 printout, e.g. for workshop work, is just as possible as a transfer to almost any insole and last software. You can use the scanner both mobile and stationary. Individual installation in a platform in your measuring room is also possible.

- ✓ Colored detection of the feet
- ✓ Automatic determination of the foot dimensions
- ✓ Automatic determination of the foot contour line
- ✓ Display and printout 1:1 possible
- ✓ Further processing in standard CAD software, e.g.
